

Sunbelt Supply Co.

VALUE-ADDED SERVICE

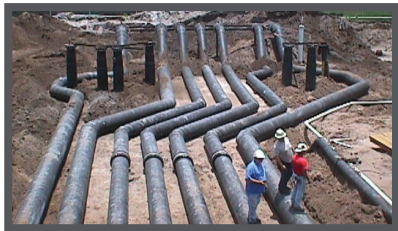

HDPE FABRICATION INSTALLATION FUSION

With a team of factory-trained fusion technicians, years of experience and 24-hour service, Sunbelt Supply Co. is with you from the design stage through installation.

FABRICATION/SHOP AND FIELD

Sunbelt Supply Co. offers plastic welding, fabrication and machine service with unique solutions to fit each customer's requirements. From manholes to plastic valves, Sunbelt Supply Co. has a team of fabrication experts who are available 24 hours a day.

INSTALLATION AND FIELD SERVICE

Proper field installation is critical to successful long-term pipe performance. Sunbelt Supply Co. provides years of experience with trained crews who have installed all types of plastic pipe in many applications.

ELECTROFUSION/FUSION SERVICES

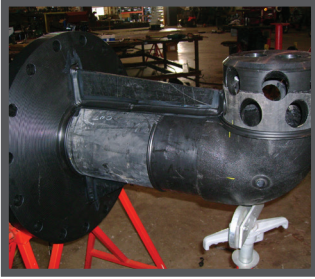

With a team of factory trained fusion technicians and thousands of hours of experience, our trained personnel are knowledgeable in both electrofusion and butt fusion installations to help our customers with their fusion needs. We have assisted our customers with the installation of complex piping systems and pride ourselves on our on-site performance.

USE SUNBELT SUPPLY CO. FOR THESE APPLICATIONS

- Lift Stations
- Sumps
- Tanks
- Dual Containment available
- Spools
- Containment Liners

INSTALLATION AND FIELD SERVICE

As factory trained fusion technicians, our skilled personnel are available on call 24 hours a day to assist our customers. With one phone call to our sales staff, we can mobilize and service the customer's needs. We have done work on sizes from 1" to 54" in a variety of industries and can provide dedicated field superintendents for each job to ensure that the work is done right. From pipe rack installations to ditch welds, our crews have accomplished it all.

ELECTROFUSION/FUSION SERVICES

Sunbelt Supply Co. offers a variety of fusion services that are best suited to efficiently join polyethylene pipes. As a fusion expert, we can cost effectively repair pipe bursting, slip lining, dual containment, directional drilling, and manhole connections.

Our trained fusion technicians can travel to any job site nationally or internationally. Handling electrofusion to wedge welding, we can join pipe quickly, economically and permanently — in the shop or on the job site.

WE OFFER A WIDE RANGE OF FUSION SERVICES:

- Electrofusion Services — Couplers, Sidewall, Anchoring
- Sidewall Fusion carbon steel
- Socket Fusion
- Extrusion Welding
- Wedge Welding
- Hot Air Welding

Sunbelt Supply Co.
